Attention to medical education

5- Cooperation in finding and creating jobs for different groups, especially during the Corona pandemic

6- Invite international organizations such as the World Health Organization, UNICEF, OCHA, the World Food Organization and others; we call on the League of Arab States, the Organization of Islamic Cooperation and the Islamic Development Bank to carry out their requested role in this disaster

And that we appreciate the role that some countries and institutions have played to support the health sector in Yemen, we call on all countries and international and non-governmental organizations to provide urgent and quick support to save Yemen.
